## City Council Has Reduced Admission To Swimming Pool

The Pahokee City Council at a meeting in the city hall Tuesday night voted to reduce admission prices to the public swimming pool in the city park from 35 cents to 24 cents for adults and from 14 cents to nine cents for children. The use of the pool from 6 p. m. until dark will be reserved for adults through the coming season. Waterworks Superintendent R. J. Schroder was authorized to install a larger drain pipe in the pool.

Principal C. A. Canipe announced that, in connection with the school's summer program, swimming classes for beginners will be held at the pool from 8 to 10 a. m., Mondays through Fridays, starting June 19. The classes will be under the direction of an accredited Red Cross swimming instructor who will be assisted by high school students and while the classes are in progress the pool will be closed to all but those learning to swim, he said.

The group voted to have signs erected designating Barfield Highway as a truck route through the city. Julius Moon and Councilman Leo Wroten were named on a committee to study plans for opening a new 60-foot street running through the Vetteville subdivision and connecting with Barfield Highway and Larrimore Road. A \$15 membership to the County Resources Development Board was voted for the city.

Clerk Clyde Alley was instructed to ask for bids for new equipment for the fire department, paint for repainting the waterworks plant and service tapping machines for the plant.

A resolution was passed commending W. P. Walker for his 16 years of faithful and efficient service to the city in the capacity of city clerk. Another resolution passed at the meeting recommended that State Road 15 be designated as a federal highway.

## C. P. Lions Hear Street Light Report

At the regular dinner meeting of the Canal Point Lions Club Monday night Grady Echols, reporting for the committee in charge of the club's street lighting project, said that half the funds necessary for installing and operating the lights over a two-year period have been collected from individuals and business firms by club members and the committee hopes to have all the necessary funds collected and ready to be turned over to the Florida Power and Light Company by next Monday.

A quiz program was conducted by Boyd Vorhees, program chairman, who was ably assisted by the tall-talker, G. L. Sims, vice president, presided in the absence of President A. R. Harrington, who was representing the club at the Lions State Convention in Pensacola.

Herbert Hoover and Harry Truman are the only persons who were born and lived west of the Mississippi river to occupy the office of President of the United States.

Following an inspection of the new cattle market between Pahokee and Belle Glade in County Commission Vice-Chairman Paul Rardin's district, the commission at its regular meeting Monday adopted a motion praising the undertaking and proffering county cooperation in development of the market.

The action was an outgrowth of an inspection of the new market made by Vice-Chairman Rardin and Commission Chairman Lake Lytal a short time ago.

At the request of the board, M. U. Mounts, county agricultural agent, whose department has supported the new undertaking, explained to the commission the activities in which the new market has been involved and its outlook for the future.

Mounts said that Vice-Chairman Rardin and other members of the board had been cooperative in setting up the market, and had given assistance in the matter of arranging the roads and improving the area around the site. He said that although the cattle market is operated as a private undertaking it has proven a boon to the Everglades.

The county agent said the market will operate regularly on Fridays, and will not only bring in cattle for sale in the Everglades but will perform a second function by offering products of Everglades ranges to buyers. He said that approximately 600 head of cattle were put on the block on each of the first two Fridays the market has operated.

To illustrate the possible development, Mr. Mounts said that the Beebe Cattle market on Military Trail transacted a half million dollars worth of business last week. He said that he could foresee a constant increase in the work of the Everglades market and emphasized that it had already filled a definite need.

It was as a result of the inspection by Vice-Chairman Rardin and his colleague, Chairman Lytal, augmented by the details submitted by Agent Mounts, which prompted the board to offer its fullest cooperation to the operators of the new market.

Under the motion submitted at the Monday meeting, a resolution reflecting the sentiments of the county commission will be sent to the market operators.

## Ben F. Sunday Wins Commission Seat From Delray Beach In Tuesday Vote

Ben F. Sunday won the Democratic nomination for Palm Beach county commissioner from District Four by 1,457 votes to 1,160 for Neil MacMillan, according to complete unofficial returns in Tuesday's runoff primary.

Sunday, a Delray Beach merchant, will replace C. Y. Byrd, also of Delray Beach, who had been commissioner for almost 18 years. Palm Beach county's 47 precincts gave Wilbur C. King 2,949 votes to 1,757 for Grady Albritton in the state railroad commissioner race.

The complete unofficial returns showed John W. O'Bannon highman for Democratic committee on Congressional District Six with 2,575 votes to 1,004 for Daniel Murphy, Delray Beach, and 488 Ellis Kusworth, Westgate. O'Bannon lives in West Palm Beach.

They showed E. B. Donnell elected state Democratic executive committee man with 1,956 votes against 1,043 for Paul Grnigle, Delray Beach, and 1,495 for W. A. Wall, West Palm Beach.

STUART—Evans Cray, Stuart, incumbent, defeated Otis Parker, Jr., Ft. Pierce, for Democratic nomination for State Senator, 12th District, in Tuesday's runoff primary.

FORT PIERCE—W. C. Baggett for clerk of circuit court, Harry J. Kiehl for District 2 county commission and Niels W. Jorgensen for District 3 county commission were winners in Tuesday's runoff primary in St. Lucie county. Baggett, veteran former deputy in the clerk's office, defeated Raymond E. Ford, appointee and incumbent, by a vote of 3,278 to 1,958 for a majority of 1,320.

Kiehl defeated J. D. Brewer, incumbent county commissioner, by a vote of 2,797 to 2,422; Jorgensen defeated M. A. Patrick, incumbent commissioner, 3,122 to 1,991.

DELAND—E. W. Gautier of New Smyrna Beach was elected to the state senate from Volusia county in Tuesday's primary election beating I. Walter Hawkins of Daytona Beach by 11,537 to 8,313.

In the race for a seat in the House, Tom T. Cobb of Daytona Beach won over George Goebel, also of Daytona, 9,812 to 7,532.

In the only Statewide contest, Wilbur C. King easily defeated Grady Albritton for the State Railroad and Public Utilities Commission.

King, the commission chairman, was renominated after campaigning on his first term record.

Chester B. McMullen of Clearwater crushed J. Tom Watson's hopes for a political comeback in Tuesday's runoff primary by decisively defeating him for Congress.

Watson, a colorful political figure for years who was two years ago defeated in his race for Governor, trailed with 37,924 votes to McMullen's 55,558 with only seven precincts in the First District uncounted.

## Experts Study To Eliminate Worms From Sweet Corn

CLEWISTON—"Worm-free corn produced in Florida has attracted the attention of growers from many other states, who came here to learn the techniques of its production," said Dr. F. S. Jamison, of the Florida Experiment Station at a statewide meeting of sweet

corn growers and shippers here last week.

LaMonte Graw, manager of the Florida Fruit and Vegetable Association, sponsoring organization, conducted the meeting which attracted a large attendance of persons interested in the production and marketing of sweet corn, Florida's fastest growing vegetable industry.

Included in the agenda were such varied subjects as new varieties and cultural methods, protective measures, and harvesting and shipping practices. Dr. Jamison said that insecticides of the present day are the life saver of the corn industry and stressed the necessity of proper applications for effective results.

J. E. Wathen, chairman of the Transportation Committee of Florida Fruit and Vegetable Association, reported on negotiations recently begun with the originating railroads for lower freight rates on Florida's No. 1 vegetable crop. It was stated by R. K. Parson, freight traffic manager of the Florida East Coast Railroad, that this recommendation is being given serious consideration by the railroads.

## Why "Moose" Changed His Mind

Last week, parents were calling Moose Jackson on the phone—and kids were hooting at him in the streets. All because Moose fenced in his field near the depot, where the kids like to play ball.

Moose got sore the way folks acted—refused to budge. Then Doc Sherman, who likes to play center, field himself sometimes, decided to "use a little psychology."

Over a friendly glass of beer at Andy's Garden Tavern, Doc says, "Sorry this came up, Moose. We were thinking of asking you to umpire—what with your professional

experience and all." (Moose used to play a little semi-pro ball.)

That did it! Next day Moose put up a stile over his fence. In return, the kids promised not to cause any damage. From where I sit, when you try to understand the other fellow's point of view—like his personal preference for beer or coffee—and then take into consideration the will of the majority, why, things seem to go better all around.

#### CHURCH OF CHRIST, SCIENTIST

"ANCIENT AND MODERN NECROMANCY, ALIAS MESMERISM AND HYPNOTISM, DENOUNCED" is the subject of the Lesson - Sermon which will be read in Churches of Christ, Scientist, throughout the world on Sunday, May 28.

The Golden Text is: "If God be for us, who can be against us?" (Rom. 8:31).

Among the citations which comprise the Lesson-Sermon is the following from the Bible: "Deliver me, O Lord, from the evil man; preserve me from the violent man; Which imagine mischiefs in their heart; continually are they gathered together for war" (Ps. 140: 1, 2).

The Lesson-Sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "As named in Christian Science, animal magnetism or hypnotism is the specific term for error, or mortal mind . . . The truths of immortal Mind sustain man, and they annihilate the fables of mortal mind, whose filmy and gaudy pretensions, like silly moths, singe their own wings and fall into dust. 'In reality there is no mortal mind, and consequently no trans-

ference of mortal thought and will-power. Life and being are of God" (103: 18-19, 25-32).

The new slate of Guild officers, presented for the installation by Mrs. C. T. Jackson, retiring president, consists of Mrs. Sam McKinstry, jr.—president, Mrs. Thomas Breger—vice president, Mrs. O. R. Bleech—treasurer, and Mrs. F. P. deMoya—secretary.

At 10 a. m. on the same date the Holy Nativity Church School opened. Also continuing this week will be the special Saturday afternoon course of instructions for acolytes. ### Body Of Driver Is Found In Canal

The body of Frank Porter, 26, negro truck driver for J. H. Wilkinson, Sr., Pahokee vegetable harvesting contractor, was discovered floating downstream in the West Palm Beach Canal at Twentymile Bend Tuesday morning by a road construction crew working in that area.

Porter left his home in Pahokee Sunday morning on a fishing trip in one of the Wilkinson trucks and was evidently riding alone, according to State Highway Patrolman B. W. Brinson, who investigated.

An examination of the highway about a mile west of Twentymile Bend showed signs that the truck, heading east, had sideswiped some tree stumps bordering the road before it plunged into the deep water and was completely submerged. After it was located from a boat two wreckers were required to bring it out of the canal and damage to the vehicle was estimated at \$1200 Brinson said.

## Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

A change in a lease agreement between Palm Beach county and the U. S. General Service Administration, bringing all International Airport lands under jurisdiction of the county commission, was approved by the board at its regular meeting Monday.

As explained by County Attorney Harry Johnston, the change in lease would bring under county authority lands which had been set aside for use by the Palm Beach County school board, some of which is now in use for Palm Beach Junior College. The new lease, Johnston says, provides that the county shall control all facilities of the former airbase, subject to schoolboard use of certain areas for educational purposes. The attorney said the agreement will run for ten years.

Other action by the county commission Monday included:

Referral to each commissioner of homestead exemption applications which had been refused. The commissioners are to take the denials under consideration for a report at the next meeting.

Granted the request of the city of West Palm Beach for vacating dedication of two lots in the Northwood section, subject to approval by the county engineer and attorney.

Received an invitation from Col. A. G. Mathews, for the commission to join in organizing a Southeastern Resources Development Association for the purpose of promoting industry in Florida. The organizational meeting will be held in Tampa on May 25.

Directed the county attorney to

draw a resolution of appreciation for County Jailor Tom Riggs who this week completed 25 years of service. Commissioner Chairman Lake Lytal pointed out that Riggs had performed a "splendid service to the county" and should be commended for his "long and loyal service."

Instructed Asst. County Auditor R. B. McKee to call on department heads for budget requirements for the coming year.

Heard a report from Asst. County Attorney Henry Lillenthal that the county could seek dismissal of a circuit court case filed against the Jupiter Beach area, which has been developed for use by negroes.

Voted to start equalization hearings on tax roll the first Monday in July.

Adopted a resolution supporting completion of an inland waterway between Tarpon Springs and St. Mark, a project that would link Palm Beach County and New Orleans with a sheltered water route.

Approved a request from the West Palm Beach Air Maneuvers, Inc., to stage an airshow at International Airport June 16, 17, 18.

First day of the event marks the finish of a 1,500 mile air race between Montreal, Canada and West Palm Beach, while the latter two days have been set aside for all women air maneuvers.

Heard a report from County Engineer J. M. Boyd that the new draw span of the Lantana Bridge is now in operation and that the bridge will be finished in July.

Boyd also reported that the Southern Blvd., bridge will be completed by August.

Directed that a resolution be drawn calling attention to the services performed by Gen. L. R. Hickam, while he served as County aviation director, a post Hickam recently resigned.

Voted to cooperate with the town of Lantana in developing a park area on the Lantana oceanfront if arrangements for purchase are voted.
